dekoraPUR

Innovations included.

Choose from a selection of widely combinable features and functions to suit your exact needs.

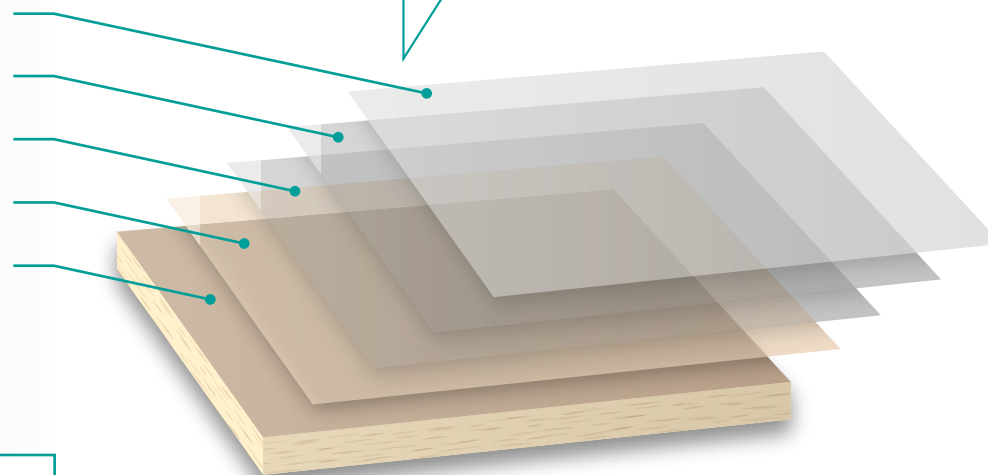

Current new developments are giving rise to additional functional options.

Carrier boards + functions

KLEIBERIT HotCoating®-technology

 Protective topcoat
 2nd basecoat
 1st basecoat
 Functional
KLEIBERIT HotCoating® layer
 Carrier board

= dekoraPUR

With the KLEIBERIT HotCoating®-technology, the surface becomes permanently elastic, is easier to process, and made up of only one single solid. The protective top layer consists of a coloured or transparent, non-yellowing, micro scratch-resistant varnish. Each material layer contributes to the unique KLEIBERIT HotCoating® solution.

Features

Quick Install

Easycut – use a cutter to cut to size, separate, smooth down with sandpaper
